

FROM DAMPP-CHASER CORPORATION

## Manufacturer's Suggested Retail Prices (MSRP) for the Piano Life Saver System

**NOTE:** Prices shown are for the System only and do not include labor, taxes, or shipping costs. Piano technicians' labor fees (to install the System) will vary on the basis of training, experience, and the region's cost of living. All prices are in U.S. dollars.

### GRAND SYSTEMS

Systems below Include one or more Humidifiers.

#### Grand 6-Part System

**\$382** + labor, shipping and taxes  
Includes **one** Humidifier.

#### Grand 7-Part System

**\$566** + labor, shipping and taxes  
Includes **two** Humidifiers; typically installed in concert grands. This model is appropriate for any grand exposed continuously to **extremely** dry conditions, providing there is room inside the piano cavity to accommodate the two Humidifiers.

### VERTICAL (Upright) SYSTEMS

Systems below Include one or more Humidifiers.

#### Vertical 5-Part System

**\$324** + labor, shipping and taxes  
Includes one Humidifier.

#### Backside Vertical 9-Part System

**\$548** + labor, shipping and taxes  
Includes **two** Humidifiers; installed on the back of vertical pianos where the bottom cavity is too narrow to accommodate a standard Humidifier.

### DEHUMIDIFIER SYSTEMS

**NOTE:** Prices shown are for the System only and do not include labor, taxes, or shipping costs. Piano technicians' labor fees (to install the System) will vary on the basis of training, experience, and the region's cost of living. All prices are in U.S. dollars.

Dehumidifier Systems **do not include a Humidifier** and are used primarily in environments where the humidity is continuously high.

### IMPORTANT

#### To the Piano Owner

The technician with the higher price may actually be offering you the best value for your money.

**If you're comparing prices for the System, be sure you are comparing apples to apples.**

**Along with the System installation cost, many piano technicians include a tuning or other important services.**

**ASK if other services are included in the price in addition to the System's installation.**

Dehumidifier Systems include:

- one or more Dehumidifiers rods and
- a Humidistat which turns the
- Dehumidifiers on and off as needed.

**HD Humidistat** \$96 + labor, shipping and taxes

Note: The HD Humidistat used in the Dehumidifier System will not accommodate a Humidifier.

### Dehumidifiers

LENGTH	MSRP
12 to 18-inch	\$30 + labor, shipping and taxes
24-inch	\$36
36-inch	\$38
48-inch	\$52

#### GOOD INFORMATION:

During the winter season, a Dehumidifier System cannot prevent the cracking and shrinking of wood which results from low humidity, caused by central heating. Only a System that includes a Humidifier can protect your piano in dry conditions.

**PIANO COVERS** Patented by Damp-Chaser Corp.

### Grand Undercover<sup>®</sup> or Vertical Backside Cover<sup>®</sup>

from \$58 to \$88 + labor, shipping and taxes

#### Cover prices are based upon the size of the piano.

The patented Piano Life Saver covers are necessary for pianos in environments where extreme air movement causes tuning instability. In particular, churches and other public buildings usually have extreme air movement due to governmental (OSHA) clean air mandates. Installation time for covers--1 to 2 hours; concert grand cover installations may require more time.
